shouldn't you be preparing for future expenses by accumulating regularly in a savings account at Canada's First Bank?<sup>3</sup> Or if you don't happen to have a first daughter with a paint-brush—what's your reason for saving? Every one has something important to save for!

BY JUNE CALLWOOD

There is little evidence that any group of birds, with the exception of the shorebirds, is particularly abundant in any of the habitats. Most of the species groups, *Regulus* and *Troglodytes* included, are abundant in all habitats. The shorebirds, which are abundant in the salt marsh and the salt pond, are also abundant in the salt marsh and the salt pond, and are also abundant in the salt marsh and the salt pond.

[illegible]

Certain newspapers do it daily with *Leand* in the *Leand*. They print his name, that *Leand* is dead, someone that is not dead and *Leand* is dead. Sometimes that is the word *Leand* is in the newspaper, like, *Leand*, and should be dropped from the language. A national cabinet from *Leand* is dead, the *Leand* is dead. *Leand* is dead. In Argentina.

And he tells the opposite regularly in the newspaper. He is the only in Dallas, he says, who is allowed to write his articles. He suggests that the Old Testament is full of myths. He must leave a minute to talk each day. / resumed/ arrived

# IS GOD OBSOLETE?

For many people, the question of God's existence is a matter of faith. But for others, it is a matter of reason. In this article, we will explore the arguments for and against the existence of God, and we will see how these arguments have shaped the course of Western civilization.

The first argument for the existence of God is the cosmological argument. This argument states that everything that exists has a cause, and that the chain of causes must eventually lead to a first cause, which is God.

The second argument for the existence of God is the teleological argument. This argument states that the universe is so perfectly ordered that it must have been designed by an intelligent being, which is God.

Both of these arguments are based on the idea of causality. But what if causality is not a necessary feature of the universe? What if the universe is self-causing?

These are the questions that the atheist philosopher David Hume raised. Hume argued that we can never know the cause of anything, and that the idea of a first cause is therefore meaningless.

Hume's argument is a powerful one. It challenges the very foundation of the cosmological and teleological arguments. But is it airtight?

Many philosophers have tried to respond to Hume's argument. Some have argued that causality is a necessary feature of the universe, and that the idea of a first cause is therefore meaningful.

Others have argued that causality is not a necessary feature of the universe, and that the idea of a first cause is therefore meaningless. This is the position of the atheist philosopher Richard Dawkins.

Dawkins argues that the universe is a vast, complex system that has evolved over time. He argues that the idea of a first cause is therefore meaningless, and that the universe is self-causing.

So, what is the answer? Is God real, or is he just a figment of our imagination? The answer is a matter of faith. But for many people, the question of God's existence is a matter of reason. In this article, we will explore the arguments for and against the existence of God, and we will see how these arguments have shaped the course of Western civilization.

**New Reformation: The Evangelical Press** The *New York City Times* recently published an article about the *New Reformation*, a new evangelical movement. The article stated that the *New Reformation* is a movement of young people who are seeking a more authentic Christian faith.

The *New Reformation* is a movement of young people who are seeking a more authentic Christian faith. They are rejecting the traditional teachings of the church and are seeking a more personal relationship with God.

## Once the Goulards had a dream...

Mrs. Goulard dreamed of a house designed especially for her family. She dreamed of a comfortable home where she could control the temperature in every room—warm and cozy for her little child, more refreshing for her growing teenagers. Mrs. Goulard dreamed of a home where she could entertain—a bright, fresh, charming home that would always be inviting to their friends.

Mr. Goulard dreamed of a well-planned home where all the space would be living space. He dreamed of a worry-free home that would keep his family safe, secure and comfortable through the cold winters of Northern Ontario. He dreamed

of a practical home too, a home that would fall in line with the dream yet be reasonable in cost.

Together, the Goulards dreamed of a home with a healthful atmosphere, where dry throats would be a thing of the past and the whole house would be free from draughts and chilly spots. They dreamed of a home where their family could grow up in an atmosphere of warmth, love and comfort. Mr. and Mrs. Goulard dreamed of a home they would want to live in always.

One day, the Goulards decided to bring their dream to life. They found the perfect spot for their home and planned it in every detail. Then they built that home with electric heating.

## now electric heating makes the dream come true

Now, Mrs. Goulard's dream is a reality. She enjoys relaxing with her family in her comfortable home. It's her dream home. And because Radiant electric heating doesn't add heat before Mrs. Goulard's home any longer. Radiant heating.

Now, Mrs. Goulard's dream is a reality. She enjoys relaxing with her family in her comfortable home. It's her dream home. And because Radiant electric heating doesn't add heat before Mrs. Goulard's home any longer. Radiant heating.

The Goulards have a truly comfortable home. Individually controlled electric radiators by their bedrooms, living room, and dining room. The radiators can be kept a little warmer when a full rate for electric heating is needed.

# BACKGROUND

...on why it took a melodramatic murder to goad the British government into action against the pirate radio stations

1992 or so, a British magazine published an article by M.P. Oliver, leader of a coalition favoring more national security, in which 40 per cent of the country's radio stations that broadcast the unregulated English were said to have been "black" or "pirate" stations. The article, which included a list of names, was widely reprinted, but by the time the British government would have had the pirate stations' names, the government had already moved. BBC Britain's only licensed radio network, based in London, was ordered to give the pirate radio stations a 10-minute slot on the air.

So far, the British government's move appears to have been a success, but it is not clear if it is a success. The government has not yet passed legislation that will prohibit the use of pirate radio stations. The government also has not yet passed legislation that will prohibit the use of pirate radio stations. The government also has not yet passed legislation that will prohibit the use of pirate radio stations.

On the night of June 20, a group of 10 people, including a woman, a man, and a woman, were arrested in a rooming house in London. The woman, who was arrested, was the only one who was arrested. The woman, who was arrested, was the only one who was arrested.

## CHECKLISTS

### TELEVISION

**Big Brother** (TV-14) (ABC) (11:30-12:00 a.m.) This series is probably the most controversial series on TV. It is a reality show in which a group of people live together in a house. Should your child catch measles and "get it over with"?

Ask your doctor.

Perhaps you're always told that measles is a viral disease, or nothing much to worry about. But sometimes measles is serious.

Every year, thousands of children die of it. And, almost as tragic, measles often causes serious complications—permanently impaired hearing or lasting brain damage.

Now, new and effective vaccines help protect your child against measles and its complications. Ask your doctor when a vaccine should be given.

Vaccines, produced or distributed by Parke-Davis, have helped bring great reductions in sickness, disability, and death caused by the communicable diseases of childhood.

Both Coca-Cola and Coke are registered trademarks which identify the product of Coca-Cola Ltd. Don't miss *THE BEVERLY HILLBILLIES*, weekly on CBC-TV

Things go better with  
Coke after Coke after  
Coke. With or without,  
it's always refreshing.  
Because ice-cold  
Coca-Cola has the taste  
you never get tired of.

DRINK
